FUJIFILM ENDOSCOPY TRAINING

Enhance the quality of upper GI endoscopy is the new paradigm for Western countries. The course is designed to deepen understanding of key elements for quality of upper GI endoscopy. The theoretical lessons, the video-training sessions and the live demonstrations will train to the best endoscopic performance. All factors contributing to the best quality of upper GI endoscopy will be discussed in depth, as exam preparation, tips and tricks for endoscopic technique, and the key performance indicators of upper GI endoscopy. With special focus on the examination of the stomach.

Training language: English
